POMATI ®

CHOCOLATE TECHNOLOGY

DIMENSION : **1000x865x1875mm**

POWER: **1.3 kw**

Aria by Pomati is an indispensable tool for creating a dedicated and safe space for decoration. Designed to meet the needs of the most demanding food laboratories, this solution includes a powerful extraction air system to maintain a clean workspace, free from substances and dust generated during the decoration of confectionary creations and molds with an airbrush.

TECHNOLOGY SERVING CREATIVITY

Aria is the ideal booth for decorating:

- Chocolate figures
- Pralines and bars
- Frozen desserts and single portions
- Polycarbonate molds

DESIGNED FOR EVERY LABORATORY

Suitable for laboratories of any size,
Aria stands out for:

- **Extraction power**: Min. 1800 m3/h, Max. 3600 m3/h (The most powerful in its category).
- **High-quality materials**: Fully made of steel for durability and hygiene.

ADVANCED FEATURES

Aria is equipped with:

- **LED lighting**: For optimal visibility during decoration.
- **Integrated wheels**: For easy movement within the lab.
- **Built-in compressor**: Pressure adjustment from the control panel (6L; 140 l/min; 8 bar).
- **Work surface**: Removable for cleaning.
- **Built-in Power socket**: the panel includes power supply for accessories (MAX 2000W).
- **Airbrush.**
- **Steel support for the airbrush**.
- **Pressure controller**
- **Removable air filters**

INTEGRATED HEATED COMPARTMENT

The booth includes a heated space to keep cocoa butter, colors, and tools fluid during breaks. It can hold up to 7 trays (60x40 cm) with convenient side guides.

AN INVESTMENT FOR THE FUTURE

Resulting from Pomati's expertise, Aria ensures:

- Fast, professional decorations.
- Reduction of fumes in the workspace thanks to a 3-layer air filtration system.
- A dust-free environment during airbrush decoration.

CONTROL PANEL

An intuitive system allows you to:

- Adjust the temperature of the heated booth.
- Control the power of the fan and compressor.
- Activate LED lights for precise work
